Attention: Karl J. Klepitsch, Jr.  
Chief Waste Management Branch

Reference: AMENDMENT OF RCRA PART A APPLICATION FOR FACILITY EPA ID NO.:  
ILD 0 0 0 8 0 5 8 9 5.

Dear Mr. Klepitsch:

ROCKFORD PRODUCTS CORPORATION wrote to you on July 18, 1985, requesting withdrawal of the RCRA TSD Permit Application (Part A) for our Plant #2 facility having EPA I.D. No.: ILD 0 0 0 8 0 5 8 9 5. We still request withdrawal of that Part A Application.

However, we also request that Part A application be amended to remove two items inadvertently included therein which are specifically exempt from the RCRA regulations and have been continuously exempt, since the RCRA regulations took effect. These items are:

- A. The oil storage tanks containing lube oil. They are permitted with IEPA Permit No.: 73032150
- B. The waste water treatment facility. It is permitted with IEPA Permit No.: 1983-EP-2722

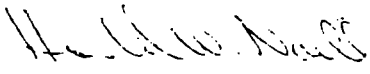

Your prompt approval and notification of this requested amendment, to the above-referenced Part A, will be greatly appreciated.

Very truly yours,

ROCKFORD PRODUCTS CORP.
